This document is a result of scanning reproductions of xerox copies, typewritten and dot matrix printer documents that were circulated among various family members in the early years.

As you explore these pages, you may notice that some of them are slightly tilted. While I have made efforts to straighten the most severely tilted pages and enhance readability, please bear in mind that these are the original documents and it takes time to straighten the "horizon line."

The family tree presented here may contain outdated information and occasional omissions of certain details. I invite you to contribute corrections, additions, and any other details you may have.

This PDF was compiled by digitally scanning xerox copies of typewritten documents. The tilted pages are original. Copy machines and paper were expensive, so took what came out the machine. For those of you born after 2000, ignore mentioned technology as a mystery. For this document, I straighten the most tilted, hard to read pages.

** ** notes as I compiled from a bunch of papers.

George Heinemann & Wilhelmina Dittman family tree contains outdated information or lacks certain details.

If you want to provide corrections or additions, or have something compiled even more detailed & want to share please send an email to me at luvmtns@gmail.com
